Total Project Cost: \$1,640,000

Owner: City of Sun Prairie - Sun Prairie, WI

Designer: Strand Associates, Inc. - Madison, WI

Project Managers: Bob Mayer; Randy Rudisill

Safety Director: Roger Thimm

Description: Construction of the Business Park detention basin began in September, 1993 and was completed in June, 1994. The project required the removal of \$100,000 cubic yards of dirt that was then used in the construction of the city's Statz Park. The project included the installation of over 2,800 linear feet of 10 inch watermain, over 2,300 linear feet of 8 inch sanitary sewer, over 1,700 linear feet of 42 to 54 inch storm sewer, and over 1,300 linear feet of 12 to 24 inch storm sewer. The heavy rains in spring and summer of 1993 resulted in very wet ground conditions for excavating.
